THE ARTIST

XILLA is a Houston-based DJ and producer engineered for the darkest, heaviest rooms in the game. Drawing from dubstep, 140, and trap, XILLA crafts sets with surgical precision – dark cinematic intros that pull you in, then drops that rearrange your internal organs.

With 38,000+ SoundCloud plays and stage credits at ILLfest 2025 and Lights All Night 2025, XILLA is rising fast – a Houston underground staple going national.

This isn't background music. This is the reason people came.
